

Fate or Destiny?

Choices, Empowerment & YOU!

What are Fate and Destiny?

- ∞ Fate is something that happens to us.....Destiny is something we choose to consciously follow.
- ∞ Fate is the result of following social hypnotic conditioning... ..Destiny is the result of following the call of your soul.
- ∞ The path of Fate creates stress since its focus is on an illusionary past or future.....The path toward Destiny is focused in the present moment which is where the miracles and magic happen.

In this workshop, you will have the opportunity to:

- ♥ Experience the essence and the voice of your soul.
- ♥ Discover the one word your Soul is calling to you to assist you in your journey.
- ♥ Learn about the seven passions that create obstacles for your healing financially, physically, and emotionally.
- ♥ Envelope the seven graces as an internal guidance system to follow in each moment.
- ♥ Understand basic Archetypes & how they influence you.
