

## *The Healing Heart Retreat* *Angels Unite!*

The Healing Heart Retreats began in 1988 in Running Springs, CA. They were created to assist us in healing the wounds buried deep inside their hearts and in transforming the illusions held within our minds. These wounds and belief systems prevent us from living in happiness and prosperity.

Over the past several years Kathryn has traveled in the United States and abroad offering these retreats and witnessing incredible transformations in individuals, couples, and families. As one of her teachers once said, "We are all members of the scar clan." We all desire one thing: to love and to be loved. The Healing Heart Retreats were created out of the passion to love and to serve love, to remember truth and to be a catalyst in assisting others in healing the scars that have caused suffering and replace them with joy.

Imagine yourself being gently guided through an awakening, healing process created just for you. Imagine being sung to with your own special song and gently rocked by a collective as you are literally floating on their fingertips. Imagine experiencing singing, dancing, story-telling, drumming, and celebrating each other. Imagine hearing voices cheering you on to your healing and roars of celebration upon your arrival! Imagine wholesome food in your belly and strolling in Mother Nature. Imagine a blissful silence where Spirit is profoundly felt deep in your heart, mind, and soul. Imagine feeling the presence of angels all around you. Now allow your imagination to move into reality for you. This has happened to many in the past and will happen for you, if you simply allow all to unfold.

*"Kathryn Leeman has been a very important part of my spiritual growth for over 17 yrs. now. Helping with personal issues, marital issues and the loss of my only child. Her private sessions, women's groups, and Healing Heart Retreats are by far the best available anywhere, mainly because she truly does care about the person or persons she is working with. Many blessings to Kathryn and her work. ~Vicki Ellis-Ehresman, Eagle Heart Dancing*
